Look inside the full plan

Real pages from the 74-page 16x20 lean-to plan. The free preview shows the shape of the build; the full plan gives you the numbers to buy and cut once.

FULL PLAN

Wall siding: item	Qty	Used for
Wall siding (sloped side walls): sheet 4x9 5/8 T1-11	2	Side-wall pieces on the siding maps. No 4x9 at your store? Buy 4x10 (120 in) and cut each piece to the same marked height; the 12 in offcut is waste

Roof framing

Roof framing: item	Qty	Used for
2x10 x 16 ft	2	Blocking between rafters (over each wall) (26 @ 1' 2 1/2")
2x10 x 20 ft	18	Rafter (16 @ 18' 4 13/16"); Fly rafter (rake) (2 @ 18' 4 13/16")
Lookout block (rake overhang): 2x4, 20 @ 2 1/2"	-	Not bought separately: cut from the back wall stud offcuts
Blocking between rafters (over each wall): 2x10, 4 @ 1' 1 3/4"	-	Not bought separately: cut from the rafter offcuts

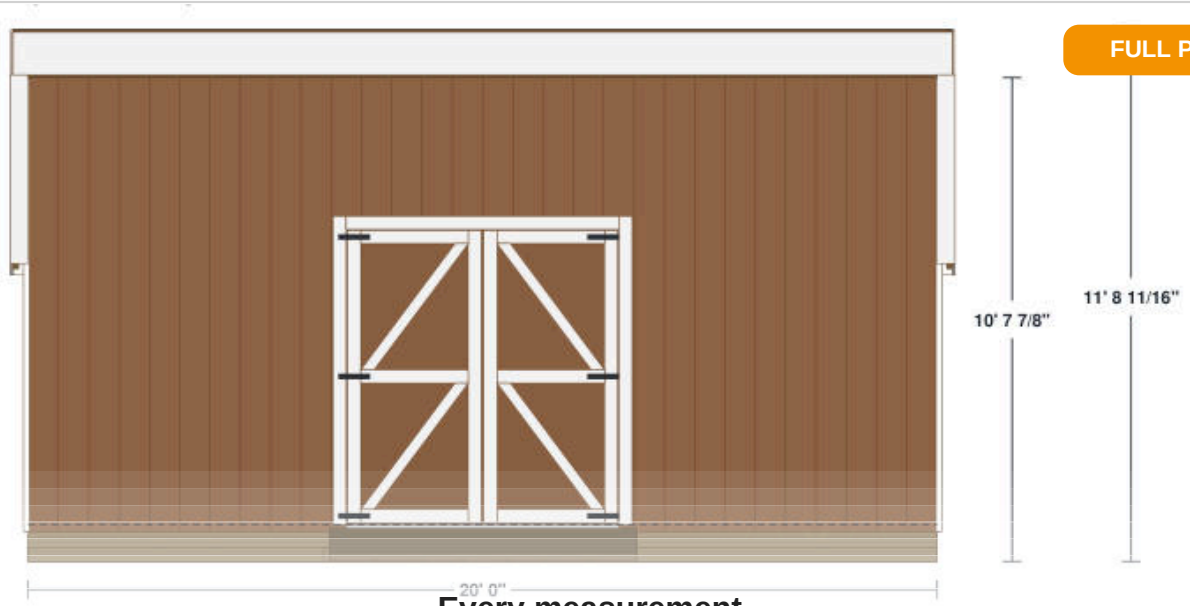

Roof covering

Roof covering: item	Qty	Used for
Roof sheathing: sheet 4x8 7/16 OSB	14	Roof deck: the lettered pieces on the sheathing map
Roofing felt (double layer below 4/12): roll 15 lb (400 sq ft)	3	Underlayment over the roof sheathing, under the shingles
Asphalt shingles: bundle 3-tab, 26		

Material list

Every board, sheet and fastener with quantities. Continues in the full plan.

FULL PLAN

Every measurement

Front, side and back views with dimensions, then one drawing per step.

Before you start

Shed rules (size limits, height, setbacks, permits) vary by town and HOA. Check your local permit office before you build.

Safety: wear eye and ear protection, keep blades sharp and guards on, work from stable ladders with a helper, and stay off open rafters.

This free version walks through the five stages of the 16x20 lean-to shed plan with views from the full plan. Below: the finished shed from the front and from the back.

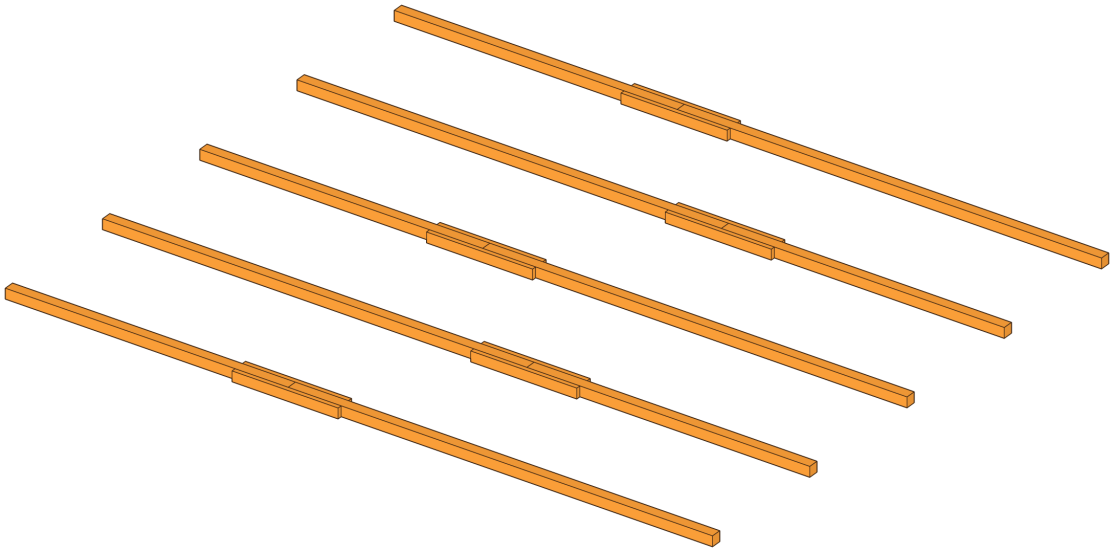

Full 16x20 lean-to plan: material list, cut list, every measurement | $19.99 | 3dshedplans.com/16x20-lean-to-shed-plan/

1 SITE AND FOUNDATION

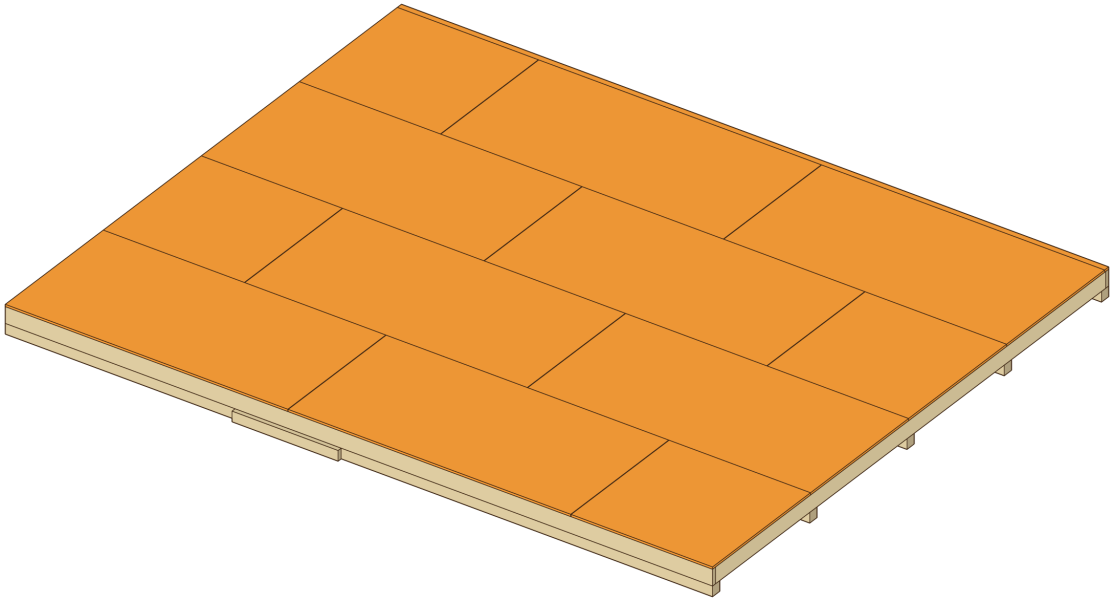

Clear and level the site, lay a compacted gravel pad inside a pressure-treated 4x6 frame and set the pressure-treated 4x4 skids level in both directions.

2 FLOOR FRAME AND DECK

Build the floor frame from pressure-treated 2x6 rim joists and joists 16 in on center, square it, fix it to the skids, and glue and screw 3/4 in tongue and groove plywood on top.

In the full plan: the site layout with its diagonals, skid spacing, the joist marks on the rims and a piece map for every decking sheet. www.3dshedplans.com/16x20-lean-to-shed-plan/

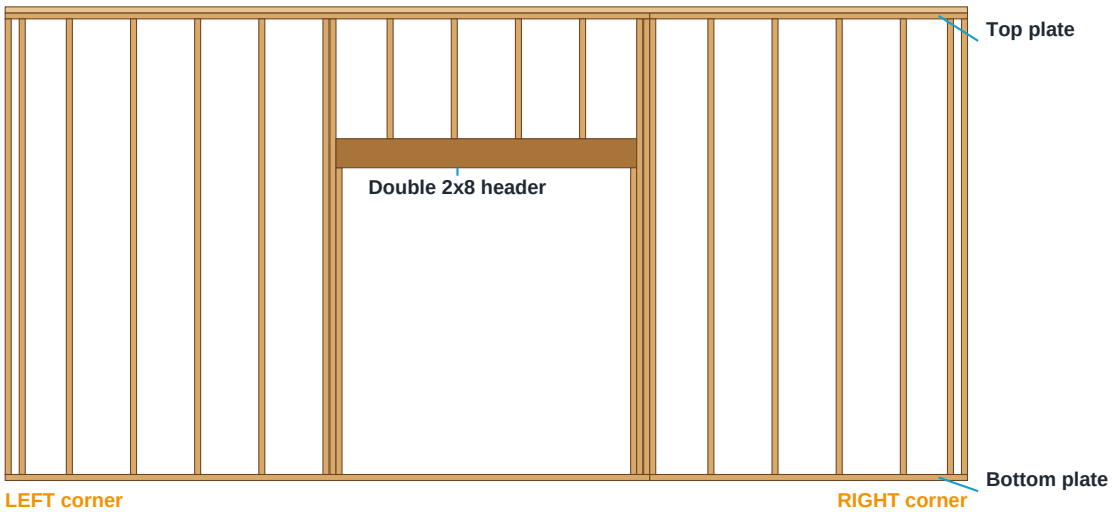

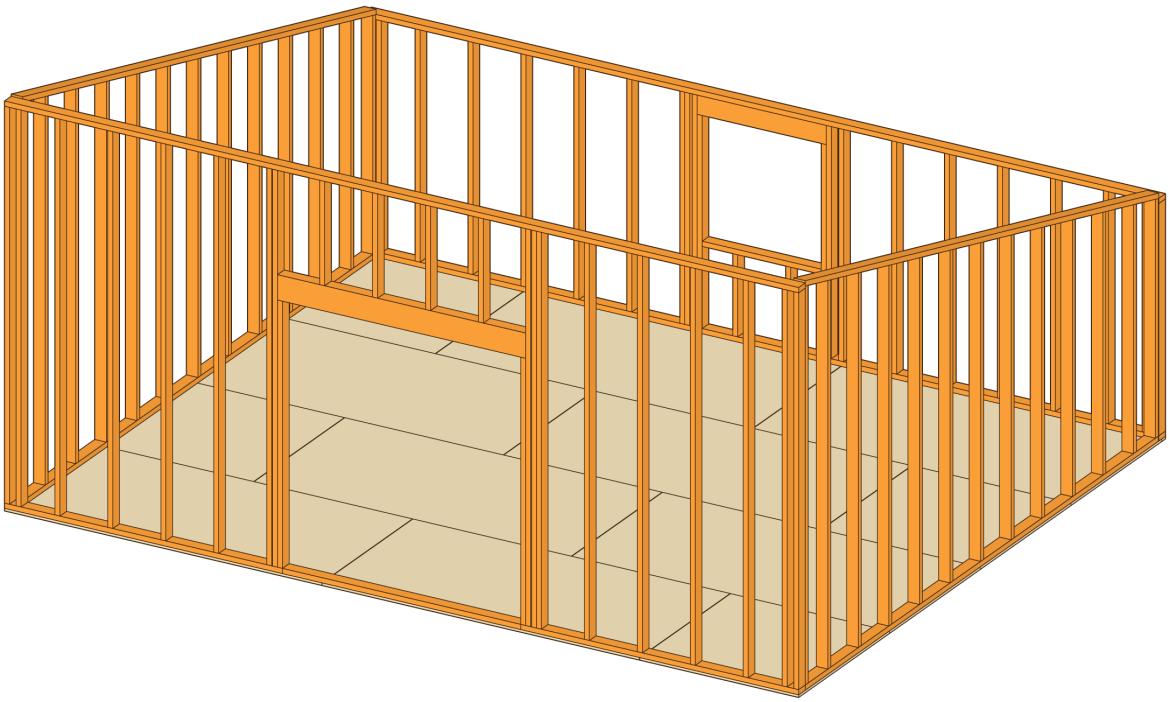

Full 16x20 lean-to plan: material list, cut list, every measurement | $19.99 | 3dshedplans.com/16x20-lean-to-shed-plan/

3 WALLS

Frame a tall front wall with the door, a low back wall with the window, and two side walls whose tops follow the roof slope, all with 2x4 studs 16 in on center. Square each one, raise it as a bare frame with a helper (tall front wall first), brace it plumb, and tie the corners together. Then hang the T1-11 siding and build the double door from T1-11 with a 1x4 frame and two Z braces on each leaf, then hang it on T-strap hinges inside a 1x4 casing.

In the full plan: every wall drawn stud by stud with a position table, the headers, the siding sheet layouts, the door leaf with its frame and brace cuts and how to raise each wall safely.

Full 16x20 lean-to plan: material list, cut list, every measurement | $19.99 | 3dshedplans.com/16x20-lean-to-shed-plan/

4 ROOF

The roof is a single slope from the tall front wall down to the low back wall. Cut a pattern 2x10 rafter with a birdsmouth over each wall, set the rafters 16 in on center, block between them over the walls, and build the rake overhang on lookout blocks. Then sheath it with OSB and add double felt, drip edge and shingles; the high front edge gets drip edge over the felt.

In the full plan: the pattern rafter with every cut, the rafter layout on the plates, the sheathing map and the shingle courses. www.3dshedplans.com/16x20-lean-to-shed-plan/

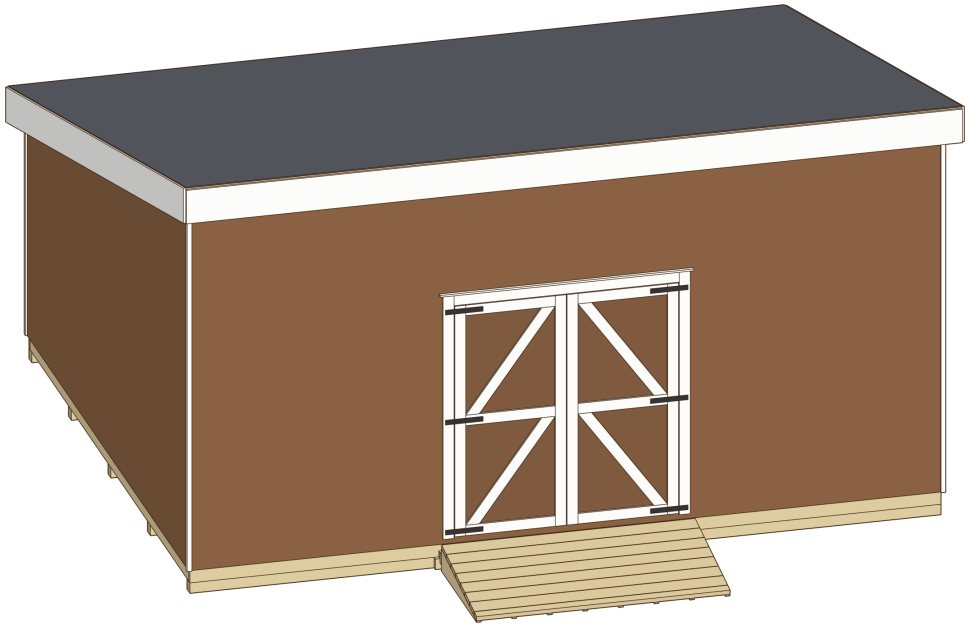

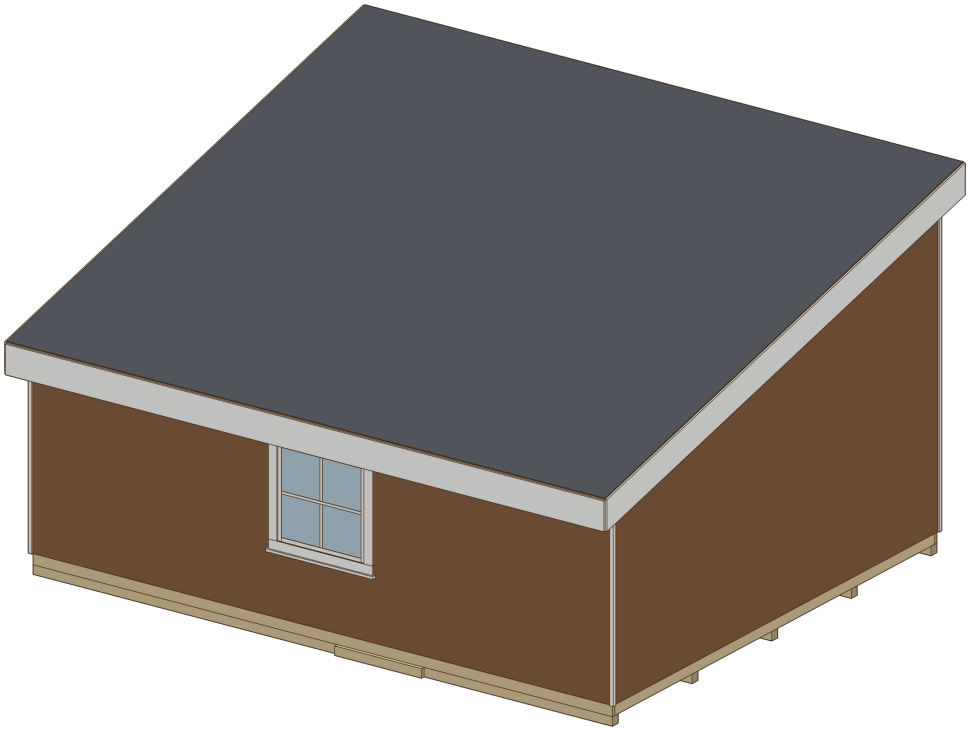

Full 16x20 lean-to plan: material list, cut list, every measurement | $19.99 | 3dshedplans.com/16x20-lean-to-shed-plan/

5 TRIM AND PAINT

Add the corner trim, the casing and drip cap around the door (front, top) and the window casing (back wall, below), then prime and paint or stain.

In the full plan: the casing and trim table, the drip caps and the corner trim, and the ramp's cut sizes and section drawing. www.3dshedplans.com/16x20-lean-to-shed-plan/
