Real pages from the 70-page 6x6 gable plan. The free preview shows the shape of the build; the full plan gives you the numbers to buy and cut once.

FULL PLAN

| Spec | Value |
|---|---|
| Foundation | 4x4 pressure-treated skids on a compacted gravel pad |
| Floor | 2x6 PT joists about 14 3/8 in OC, 3/4 in tongue and groove plywood |
| Walls | 2x4 studs 16 in OC or closer, 5/8 in T1-11 siding |
| Roof | 7/16 in OSB, 15 lb felt, drip edge, 3-tab asphalt shingles |

## 4 SHOPPING LIST BY SECTION

Buy by section so each stage has its parts. Lumber is listed in the stock length that wastes the least for that part. The pad stone, stakes, temporary braces and other stage parts are in the Hardware list, so read it before the first trip. Treated lumber that touches the gravel or the ground (skids, scabs, ramp) must be rated for ground contact (UC4A or higher). Add 2 or 3 spare studs for bad boards (not in the lumber yard order below).

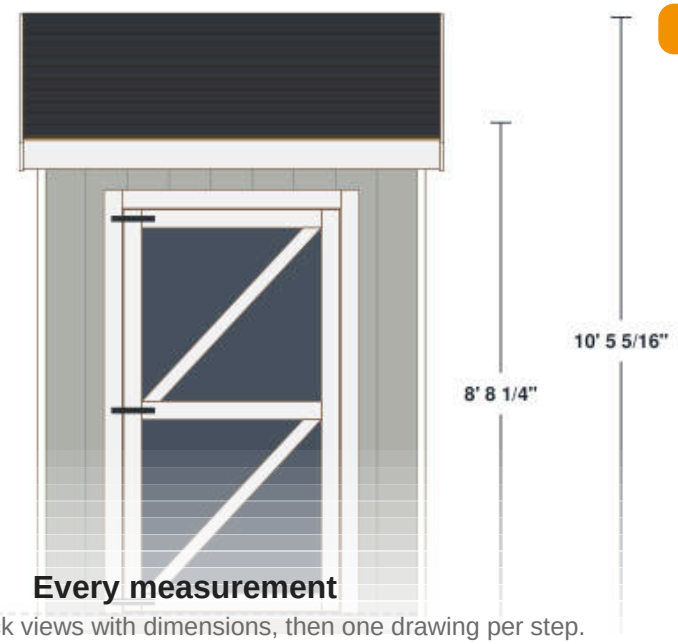

### Foundation and floor

| Foundation and floor: item | Qty | Used for |
|---|---|---|
| Pressure-treated 2x6 x 12 ft | 3 | Floor joist (6 @ 5' 9") |
| Pressure-treated 2x6 x 14 ft | 1 | Rim joist (band) (2 @ 6' 0") |
| Pressure-treated 4x4 x 8 ft, ground contact (UC4A or higher) | 3 | Skid (2 @ 6' 0") |

**Material list**

Every board, sheet and fastener with quantities. Continues in the full plan.

FULL PLAN

**Every measurement**

Front, side and back views with dimensions, then one drawing per step.

# Before you start

Shed rules (size limits, height, setbacks, permits) vary by town and HOA. Check your local permit office before you build.

Safety: wear eye and ear protection, keep blades sharp and guards on, work from stable ladders with a helper, and stay off open rafters.

This free version walks through the five stages of the 6x6 gable shed plan with views from the full plan. Below: the finished shed from the front and from the back.

## 1 SITE AND FOUNDATION

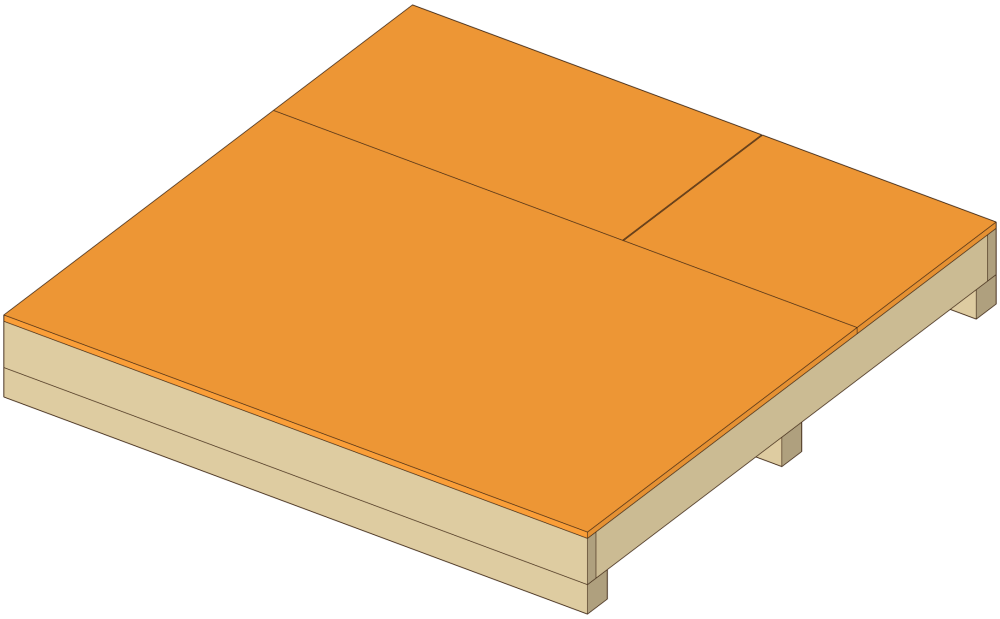

Clear and level the site, lay a compacted gravel pad inside a pressure-treated 4x6 frame and set the pressure-treated 4x4 skids level in both directions.

## 2 FLOOR FRAME AND DECK

Build the floor frame from pressure-treated 2x6 rim joists and joists about 14 3/8 in on center, square it, fix it to the skids, and glue and screw 3/4 in tongue and groove plywood on top.

**In the full plan:** the site layout with its diagonals, skid spacing, the joist marks on the rims and a piece map for every decking sheet. www.3dshedplans.com/6x6-gable-shed-plan/

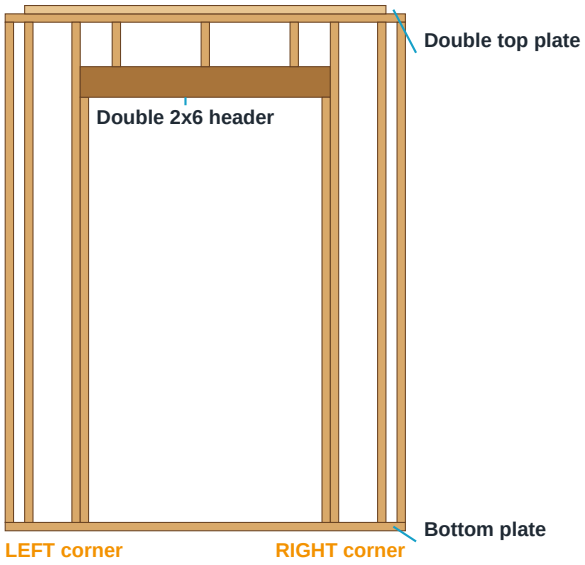

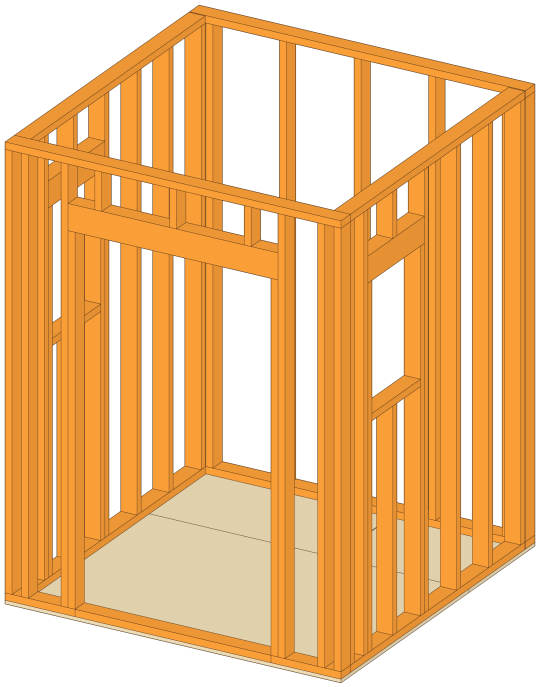

**Full 6x6 gable plan: material list, cut list, every measurement | $19.99 | 3dshedplans.com/6x6-gable-shed-plan/**

## 3 WALLS

Frame each wall with 2x4 studs 16 in on center or closer and headers over the door and windows. Square it, raise it as a bare frame with a helper, brace it plumb, and tie the walls together with the second top plates. Once all four walls stand, hang the T1-11 siding and build the single door from T1-11 with a 1x4 frame and two Z braces on the leaf, then hang it on T-strap hinges inside a 1x4 casing.

**In the full plan:** every wall drawn stud by stud with a position table, the headers, the siding sheet layouts, the door leaf with its frame and brace cuts and how to raise each wall safely. www.3dshedplans.com/6x6-gable-shed-plan/

## 4 ROOF

Cut a pattern 2x4 rafter, set the ridge board and the rafter pairs about 14 3/8 in on center, then the rafter ties, collar ties and gable end studs, and the rake overhang on lookout blocks. Then sheath with OSB and add felt, drip edge and shingles, with cap shingles along the ridge.

**In the full plan:** the pattern rafter with every cut, the rafter layout on the plates, the sheathing map and the shingle courses. www.3dshedplans.com/6x6-gable-shed-plan/

**Full 6x6 gable plan: material list, cut list, every measurement | $19.99 | 3dshedplans.com/6x6-gable-shed-plan/**

## 5 TRIM AND PAINT

Add the corner trim, the window casing and the drip caps, then prime and paint or stain. Last, build the detachable wheel-in ramp at the door: wheels roll on at a beveled toe and meet a 7/8" lip at the door.

**In the full plan:** the casing and trim table, the drip caps and the corner trim, and the ramp's cut sizes and section drawing. www.3dshedplans.com/6x6-gable-shed-plan/
